Our contribution for a better environment

Dear guests,

The hotel management and the staff are constantly making efforts to improve environmental sustainability and to protect our environment.

Please help us to achieve our objectives by the following actions:

- Please report dripping taps, waste of water and electronic problems to reception.
- Please switch off all lights and the air condition when you leave your room.
- Use our towel and bedding change program. Further information you can find on the correspondent cards in your room.
- Shower before using the swimming pool. The pool will be less polluted, so we save
- Keep the hotel clean. There are waste bins throughout the hotel as well as two recycle points (reception and pool).
- Support our recycle-program:
 - Please dispose batteries in the corresponding bins at reception.
 - Should you use glass bottles we kindly ask you to dispose empty bottles on the restaurant table or in your room. We will collect them recycling them in the glass container.
 - Electronic waste or small electronic equipment you can hand in at reception. We will recycle them accordingly.
- Explore the island by public transport. Our reception will gladly help you finding out lines and timetables.
- Try local specialties as Canarian banana, wrinkled potatoes with mojo or goat cheese as well as our local wines. Bring your friends and family local products and support our domestic industry.

Please inform reception about any further suggestions or ideas you might have to support our green objectives.

The hotel management is looking forward to your positive recommendations!

Thank you!
